INTELLIGENT EXERCISE.
PROFOUND RESULTS.

merrithew™
leaders in mindful movement™
The Merrithew™ seal represents our commitment to and guarantee of maintaining the highest standards for superior design, education and craftsmanship.

Visionary Leadership
As Leaders in Mindful Movement™, our products serve the growing mind-body modalities, and support our customers in achieving their fitness goals.

Craftsmanship
Our products are synonymous with the highest quality and finest manufacturing materials in the industry, and are crafted with pride and precision. Sleek and aesthetically pleasing, our versatile and durable equipment is designed for absolute safety and effectiveness.

Commitment to Education
Since 1988, we have been committed to developing effective and responsible exercise for Instructors, fitness professionals and exercise enthusiasts with the creation of unique, high-integrity fitness programs spanning a variety of exercise modalities.

Passion
With a bright and talented team of fitness professionals and mind-body enthusiasts, we’re continually evolving and staying ahead of the curve as a driving force in the industry.
The health and fitness industry continues to be in a rapid phase of evolution. With new practices, new technologies, new channels — things can change in a flash. The same holds true for mindful movement, a category that has grown tremendously since we started in 1988 and lends itself especially well to rehabilitation. The mind-body industry has expanded to include new modalities and fusions, new audiences, and new equipment and tools to support, build and challenge fitness regimens and service offerings, including those for rehabilitation programs.

In an effort to draw new faces to the world of mindful movement, we continue to create safe, responsible and results-oriented education, programming and equipment in line with ever-evolving exercise science. Our branded programs, STOTT PILATES®, ZEN•GA®, CORE™ Athletic Conditioning & Performance Training®, Total Barre®, and Halo® Training*, feature new programming that supports health care professionals who want to cater to new and different types of clientele, including fitness facilities, health care and wellness centers, hospitals and rehabilitation centers that want to expand or enhance their client offerings. We also look to support customers who simply want to make getting out of bed each morning easier as well as those who are regaining strength following an injury, or are working with physical conditions that require special attention. Our growing equipment line continues to add exercise diversity, catering to a broader range of clientele needs, and supporting their rehabilitative or health care goals.

It is rewarding to see the journey that mind-body exercise has taken over the last few decades, especially seeing the positive impact on tens of thousands of professionals and their clients around the world. We feel privileged to be at the forefront of an industry that is helping people of all ages and fitness abilities lead healthier lives. To our global community, we look forward to decades of continued growth — professionally and personally.

Yours in good health,

Lindsay G. Merrithew
Moira Merrithew
PRESIDENT & CEO
EXECUTIVE DIRECTOR, EDUCATION
The Leaders in Mindful Movement™

Merrithew™ education offerings illustrate the evolution of mindful movement and how our premier fitness brand, STOTT PILATES, is the foundation upon which our new and growing mind-body modalities are based. The modern principles of exercise science are inherent in all of our modalities while also incorporating newer fitness practices such as fascial fitness, biomechanics of movement, functional fitness and core-integrated bodyweight training all while maintaining the mind-body connection — essential to any rehabilitation program.

Our programs provide opportunities for personal trainers, health care professionals, group fitness instructors, athletes and other specialists to diversify their knowledge base and cater to a wider client base.

STOTT PILATES®: A contemporary approach to the original Pilates exercise method based on modern principles of exercise science.

ZEN•GA®: A unique mind-body modality that fuses elements of Pilates, yoga, martial arts and meditation into a series of flowing movements emphasizing the breath. Using props and equipment, these accessible workouts are playful yet powerful, emphasizing smooth transitions, intention of movement and breath.

CORE™: An athletic conditioning and performance training program that integrates mind-body principles with functional fitness and emphasizes quality of movement.

Total Barre®: A barre program integrating elements of Pilates, dance, cardio and strength training with music.

Halo® Training™: An overall body conditioning program incorporating the Halo Trainer for strength, endurance, flexibility, interval training and injury prevention.

**Eco-friendly** — products that are environmentally-friendly and adhere to our eco-friendly guidelines.

**Professional** — while many of our products can be and are used in facilities and studios, these products are specifically designed for professional use.

**Fascia** — products that are suited to fascial release and therapeutic movement.
STOTT PILATES® Rehabilitation Program

Aimed at therapy and medical professionals, the STOTT PILATES Rehabilitation Program demonstrates integration of modified Matwork and equipment exercises into therapeutic conditioning.

The Rehabilitation program courses cover the therapeutic foundations of STOTT PILATES and how they integrate with current rehabilitation practices, as well as choreography, modifications, indications and contraindications. Students learn verbal cueing for each exercise, how to assess proper form and correct improper execution, and integrating STOTT PILATES into clinical scenarios.

The STOTT PILATES Rehabilitation Program is open to medical and rehabilitation professionals, including physiotherapists, physical therapists and physical therapy assistants, occupational therapists, chiropractors, medical doctors and sports medicine doctors. Students may also apply if they are studying at a certifying, licensing or degree-granting institution in anatomy, physiology, injury prevention or exercise prescription with clinical experience and have been granted the right to assess, diagnose, treat and prescribe exercise for the rehabilitation and/or prevention of injuries.

Rehab Courses

Spinal, Pelvic & Scapular Stabilization

RM1 — Matwork
An introduction to the biomechanical principles of STOTT PILATES and how they apply to modified Matwork exercises. Light equipment including balls, bands and rollers are used to emphasize lumbo-pelvic and shoulder girdle stabilization and the role they play in rehabilitation and injury prevention.

RR1 — Reformer
An introduction to the biomechanical principles of STOTT PILATES and their application to modified exercises on the Reformer. The various features of the equipment help focus on lumbo-pelvic and shoulder girdle stabilization and their importance in rehabilitation and injury prevention.

RCCB1 — Cadillac, Chair & Barrels
Learn to incorporate the different levels of resistance and support provided by the Cadillac Trapeze Table, Stability Chair™ and Barrels to improve mobilization and stabilization of the lumbo-pelvic region and shoulder girdle, with an emphasis on their roles in injury prevention and rehabilitation.

Peripheral Joint Stabilization

RM2 — Matwork
Building on the biomechanical and stabilization principles from RM1, learn Matwork-based exercises with small props designed to prevent and rehabilitate common injuries. Emphasis is on core stability while balancing and strengthening muscles around the peripheral joints to gently mobilize and maintain healthy movement patterns.

RR2 — Reformer
Beginning with a review of the biomechanical and stabilization principles learned in RR1, this level demonstrates modified Intermediate-level exercises designed to rehabilitate and prevent common injuries. Learn to use spring resistance to balance and strengthen muscles around the peripheral joints while maintaining core stability.

RCCB2 — Cadillac, Chair & Barrels
Building on RCCB1, learn to stabilize the musculoskeletal structures with a variety of non weight-bearing and weight-bearing exercises on the equipment. Isolate the joints of the upper and lower extremities while maintaining core stability, then progress to exercises to improve alignment and functional mobility.

Rehab Workshops

We offer specialized workshops that cover a wide variety of important aspects of rehabilitation programming.

Titles include:
- STOTT PILATES Matwork for Breast Cancer Rehab
- STOTT PILATES Programming for Osteoporosis Management
- STOTT PILATES Programming for Scoliosis Management
- STOTT PILATES Flexion-Free Workshop
- Halo® Training*: Applications to Global Stability

Hosting Program for Rehabilitation

Deliver world-renowned Merrithew™ training and workshops onsite at your studio or clinic. Whether you wish to train your own staff or open courses up to the rehabilitation community, the opportunities for revenue generation are endless.*

Simply handle the course registration and promote the course with our assistance, and we’ll do the rest.

*Hosted education is an option if the program is not offered at a nearby Licensed Training Center.

For more on our Rehabilitation Courses, Workshops or Hosting Program contact educationsales@merrithew.com
The Three Phases of Rehab

**PHASE 1: Acute Rehab**
- Client with injury or post-surgery
- Work can only be done by a PT
- One-on-one treatment
- Working primarily on affected area of the body

Work done during this phase is focused primarily on the injured area with low-load, proprioceptive exercises that target the local stabilizers.

**Pilates use in this phase**
At this stage, low-level, rehabilitative exercises and movement modifications are used that allow the clinician to apply theoretical knowledge to target the affected area.

---

**PHASE 2: Post-Acute/Post-Rehab**
- Client has experienced improvement of injury
- Likely one-on-one treatment
- More integrative work by PT to deal not only with the injured area, but also on the integration of the affected joint or part within the entire body

**Pilates use in this phase**
At this stage, programming progresses to eccentric control of the injured region with a multitude of movements that incorporate Matwork with light props, as well as larger, specialized Pilates equipment.

---

**PHASE 3: Ongoing Conditioning**
- Strength building, injury reoccurrence prevention
- Small group-based treatment
- Indefinite length of treatment

**Pilates use in this phase**
Pilates programming can provide a maintenance system for your patients or clients. This ensures that they continue to build on the strength and stability that has been gained up until this phase, and that compensatory movement patterns are caught early and proper biomechanical and neuromuscular patterns are reinforced.
Rehab Support Material Books are used in conjunction with the following instructional manuals:

- **RM1, RR1**
  - Comprehensive Matwork
  - ST08005
- **RM2, RR2**
  - Essential Reformer, 2nd Ed.
  - ST08016
- **RCCB1, RCCB2**
  - Essential Cadillac, 2nd Ed.
  - ST08009
  - Complete Stability Chair™
  - ST08015
  - Complete Arc Barrel
  - MN08065
  - Complete Spine Corrector
  - ST08013
  - Complete Ladder Barrel
  - ST08012

**RMR1** Spinal, Pelvic & Scapular Stabilization: Matwork & Reformer
**RMR2** Peripheral Joint Stabilization: Matwork & Reformer
**RCCB1** Spinal, Pelvic & Scapular Stabilization: Cadillac, Chair & Barrels
**RCCB2** Peripheral Joint Stabilization: Cadillac, Chair & Barrels

Designed by rehab professionals for rehab professionals, these manuals dissect the source material of the STOTT PILATES® Instructional Manuals illustrating application of the Matwork and Equipment repertoires in a clinical rehabilitation setting while DVDs demonstrate the movements.

Each Support Material Book is brimming with individual exercises and related movements, along with detailed indications and contraindications for various conditions. They provide expert teaching tips for health care professionals as well as Instructors working with the rehab or post-rehab population, and include:

- Theoretical and Therapeutic Foundations
- Five Basic Principles
- Biomechanical Review
- Matwork and Equipment-based Exercises and Modifications
- Case Studies
- Clinical Reasoning Challenges
- Additional Workouts
- Reference List
  - (books, course manuals and articles)

We are constantly improving to keep pace with advancements in exercise science and the needs of our clients. The result is sleek, streamlined equipment that is versatile, durable and engineered for maximum safety and effectiveness.

Rehab V2 Max™ Reformer
Adaptable and designed for diverse clients, the Rehab V2 Max Reformer is ideal for physical therapy and physiotherapy clinics and facilities catering to a senior or mobility-challenged client base. Featuring a higher carriage allowing for easier mounts and dismounts, this Reformer is very versatile and offers easy transition between exercises.

Includes
- High-Precision Spring Package: 5 Reformer Springs (3 x 100%, 1 x 50%, 1 x 25%)
- Soft Reformer Loops (straps)
- 5 Neoprene Spring Covers for noise reduction
- Quick-Set Pulley Posts
- Carriage Stopper
- Gearbar
- Wooden Standing Platform
- Essential Reformer, 3rd Ed. DVD

ST-01073

Add accessories for better value!

Rehab V2 Max Reformer Bundle
The Rehab V2 Max Reformer Bundle includes a Reformer Box with Footstrap, Padded Platform Extender, Maple Roll-Up Pole and Essential Reformer, 3rd Ed. DVD.

ST-01084
Rehab V2 Max Plus™ Reformer

This multi-tasking machine is a raised Mat platform, a standard Reformer, a virtual Cadillac and a breakthrough multi-planar, biomechanics training tool. Travelling Pulleys on the Vertical Frame offer variable angles of resistance, providing an increased range of motion. Rehab V2 Max Plus Reformers come equipped with a High-Precision Spring Package, offering a full range of resistance for clients in various stages of rehabilitation. Instruct and perform core stability, peripheral mobility and plyometric exercises with exceptional results on the Rehab V2 Max Plus Reformer.

Includes

- Rehab V2 Max Plus Reformer (all inclusions as per Rehab V2 Max Reformer)
- Vertical Frame equipped with
  - 2 Push-Thru Springs
  - 2 Roll-Down Springs with Maple Roll-Down Bar
  - 2 Arm Springs with Foam Grip Handles
  - 2 Leg Springs with Padded Long Spine Straps
  - 2 Extension Straps
  - 2 Travelling Spring Hooks
  - 2 Travelling Pulleys and a Safety Chain
- Two DVDs: Essential Reformer, 3rd Ed. and Athletic Conditioning on V2 Max Plus™ Reformer, Level 1

Add accessories for better value!

Rehab V2 Max Plus Reformer Bundle

The Rehab V2 Max Plus Reformer Bundle includes a Mat Converter, Reformer Box with Footstrap, Padded Platform Extender, Maple Roll-Up Pole and two DVDs: Essential Reformer, 3rd Ed. and Athletic Conditioning on V2 Max Plus™ Reformer, Level 1.

Features

- Patented Retractable Rope System with recoiling rope reels for easy adjustments. Longer ropes add increased range of motion and fluidity to exercises; allowing for more programming options
- Quick-Set Pulley Posts feature 12 adjustable height settings, quick rope adjustment angles and consistently even pulley heights
- Enhanced Springs are built to withstand vigorous use with Jumpboards™, Cardio-Tramp® Rebounders and other Reformer accessories and secure quickly and safely
- Many options for user settings: 3 gearbar positions adjust spring tension, 6 carriage-stopping positions accommodate different heights, 3 headrest positions, 4 footbar positions regulate hip and knee flexion
- Carriage glides over sleek C-channel aluminum rails, using a patented rolling mechanism for a smooth, friction-free ride
- 1” thick wooden standing platform supports a wide range of body weights
- Comfort Footbar is easier on sensitive feet and hands
- Pommel-style shoulder rests stay securely in place and detach easily. Easy-Roll Wheels make it a breeze to move or reposition
- Built to withstand continuous, high-intensity studio use with durable vinyl upholstery. Dense EVA foam provides maximum comfort and accurate proprioceptive feedback
- High-Traction Reformer Feet provide superior grip and will keep your Reformer in place on all types of flooring during high-energy Jumpboard or Cardio-Tramp Rebounder workouts
- Minimal assembly required.
  For assembly support and video instruction, visit merrithew.com/assembly

Upgrades

- Tall or long torso? Add 6”/15 cm to the length of your Reformer with an Extension Upgrade
- High-Precision Gearbar System adds 50% more gearbar positions
- Max Plus Vertical Frame and Mat Converter add Cadillac functionality
- Mat Converter allows for Matwork exercises on a comfortable, raised surface

Available in 10 standard upholstery colors for no additional cost. For an additional cost, you can choose from 75 custom colors so your equipment reflects your style and space.
V2 Max™ Reformer
A favorite among health and fitness professionals, the V2 Max Reformer is our top-selling studio Reformer and is ideal for boutique studios, clubs and fitness facilities with a dedicated Pilates space. This standard-height Reformer is very versatile, allowing easy transition between exercises and facilitating efficient group and one-on-one training sessions. Suitable for all types of clients, including athletes, rehab recipients, the active aging, and regular fitness enthusiasts.

Add accessories for better value!
V2 Max Reformer Bundle
The V2 Max Reformer Bundle includes a Reformer Box with Footstrap, Padded Platform Extender, Maple Roll-up Pole and Essential Reformer, 3rd Ed. DVD.

V2 Max Plus™ Reformer
The “Cadillac” of our Reformer line, the V2 Max Plus Reformer facilitates limitless exercise possibilities. This one-of-a-kind unit multi-tasks as a standard Reformer, a raised Mat platform, a virtual Cadillac and a breakthrough multi-planar, biomechanics training tool. Equipped with our innovative Retractable Rope System and Travelling Pulleys on the Vertical Frame, the V2 Max Plus offers variable angles of resistance, providing an increased range of motion, making it the premier tool for Pilates-based, sport-specific, rehab and cross-training movement.

Choosing a Reformer

Deciding on the right Reformer when there are so many compelling options can be challenging. Your practice, your client, your potential clients, your studio size and budget all need to be taken into consideration when making this critical purchase.

Rehab V2 Max™ Reformer
The Rehab V2 Max Reformer is the perfect option for Rehab practices or any studio that has a wider variety of clients. Built higher off the ground for easier mounts and dismounts, this Reformer is designed for working with mobility-challenged clients, as well as taller clients who find the shorter machines too close to the ground. As with all our professional Reformers, this machine is fully upgradable with a Vertical Frame and a range of accessory boards.

V2 Max™ Reformer
Considered the ultimate professional quality machine, this refined Reformer performs with its signature “whisper-smooth ride.” The V2 Max is higher off the floor than the SPX Max, which offers easier access for clients. A 24”/61 cm wider carriage accommodates larger body sizes and is ideal for both boutique and in-club Pilates studios where exceptional durability and programming expandability are paramount.

SPX® Max Reformer
Weighing in at only 128 lb/58 kg, this is the most cost-effective entry-level professional Reformer we offer. The SPX has the same features and innovations as a V2 Max, but is built lower to the ground with a narrower 22”/56 cm frame to accommodate multi-use facilities. This Reformer is a great choice for studios where space is at a premium (multiple units can be stacked away when not in use), but professional quality and performance is still required.

Equipment Specs
For easy reference, we have provided the key measurements for our entire line of Reformers. For any questions about equipment not found here, please email equipment@merrithew.com

High-Precision Gearbar System Upgrade
With 50% more gearbar positions than our standard gearbar system, this optional upgrade adds superior spring adjustability to meet user needs. Spring slots provide secure anchoring of the springs and with six different options for spring tension, adding challenge for your clients has never been easier.

OPTIONAL UPGRADE ON ALL NEW COMMERCIAL REFORMER PURCHASES.
ST-05109

Reformer Extension Upgrades
Tall clients? Need a little extra length? An Extension Upgrade adds an additional 6”/15 cm to both the frame and the carriage on your Reformer. For additional support the Extension Package also includes mid-rail legs. A great option for tall clients (6’4”/193 cm) or those with long torsos.

Simply order your Reformer, and add an Extension Upgrade. If added to a Bundle, we will substitute the Extra Long Reformer Box with Footstrap in place of the regular Reformer Box.

SPX Max Reformer with Vertical Stand Bundle
Our best option for facilities with limited space or multi-purpose exercise rooms. This Reformer stands on end for convenient storage. Simply roll it to where you want to store it, raise the Reformer and deploy the stand to hold the Reformer firmly upright.

Bundle Includes Padded Platform Extender, Reformer Box with Footstrap, Maple Roll-Up Pole, Soft Reformer Loops and Ropes, High-Precision Spring Package, Essential Reformer, 3rd Ed. DVD.

ST-11032 — sold individually
The Anatomy of a Vertical Frame

Adding a Vertical Frame to your Reformer dramatically increases programming options — along with the full Reformer repertoire, about 80% of Cadillac exercises can be performed with just one machine.

1. Travelling Pulleys
   Allows for variable angles of resistance providing increased ranges of motion and optimal muscle activation. Accommodates a variety of exercises in supine, side-lying, kneeling and standing positions.

2. Roll-Down Bar
   Springs are available in light and regular strengths, can be attached to the Travelling Eyehooks or Vertical Frame, and used with the Mat Converter or Reformer Carriage, to expand programming options.

3. Travelling Eyehooks
   Travels the full height of the Vertical Frame to change the angle of resistance for each exercise when using arm and leg springs.

4. Push-Thru Bar
   Utilizes springs from above or below, in conjunction with the moving carriage or the Mat Converter, and is an especially great choice for standing exercises.

5. Arm and Leg Springs
   Arm and Leg Springs can be attached at various locations on the sides and back of the Vertical Frame or on the Travelling Eyehooks for additional exercise options.

6. Safety Chain
   Secures the Push-Thru Bar.

Extension Straps (see page 16)
Facilitates Reformer programming where the strap is wrapped around the top of the thigh, pelvis or torso. Perfect for rehab-based applications, it assists in the alignment and stability of the knee joint, and improves muscle activation.

Max Plus™ Vertical Frame
Comes equipped with 2 Push-Thru Springs, 2 Roll-Down Springs with Maple Roll-Down Bar, 2 Arm Springs with Foam Grip Handles, 2 Leg Springs with Padded Long Spine Straps, 2 Extension Straps, 2 Travelling Spring Hooks, 2 Travelling Pulleys and a Safety Chain.

V2 Max ST-02045
Rehab V2 Max ST-02046
SPX Max ST-02047

Traditional Vertical Frame (not shown)
Also available for all models and suitable for older model Reformers with traditional rope systems. These frames feature fixed eyehooks and do not include Travelling Eyehooks.

Comes equipped with 2 Push-Thru Springs, 2 Roll-Down Springs with Maple Roll-Down Bar, 2 Arm Springs with Foam Grip Handles, 2 Leg Springs with Padded Long Spine Straps, 2 Extension Straps, and a Safety Chain.

NOTE: VERTICAL FRAMES CANNOT BE ADDED TO THE HOME SPX MODELS.

V2 Max ST-02039
Rehab V2 Max ST-02012
SPX Max ST-02076

Why add a Mat Converter?
With a Mat Converter in place, you can offer Matwork classes on the Reformer at an accessible height to appeal to mobility-challenged and older clients. Attract new clients with sport-specific classes offering exercises to improve golf swings and overhand throws.
Maximize your Reformer with high-caliber accessories that facilitate alignment, add challenge, and engage key muscle groups. Essential additions to any rehabilitation studio or clinic.

Reformer Box with Footstrap
Add a Reformer Box for additional height and a greater range of motion while seated or lying on the Reformer. Reformer Boxes are a great accessory for those with tight hip flexors or as a modification for kneeling exercises for those with knee issues. Three choices to meet your needs: Regular, Extra Tall and Extra Long. The Extra Tall option is great for use with an SPX® Max Reformer to provide additional height for side leg and arm exercises. All sizes come with a Footstrap.

Regular ST-02000 Extra Long ST-02002 Extra Tall ST-02001

Maple Roll-Up Pole
Our solid Maple Roll-Up Pole is used to increase focus on scapular stabilization, while performing exercises on the Reformer, Ladder Barrel or Mat.
ST-06008

Weighted Bar
Our Weighted Bar is a 2 lb/0.9 kg metal pole with rubber covering and chromed endcaps. Use to add resistance and increase focus on scapular stabilization while performing exercises on the Reformer, Ladder Barrel or Mat.
ST-02115
Reformer Accessory Boards

Cardio-Tramp® Rebounder
The client favorite! Add energetic and calorie-burning cardio workouts to your Reformer programming. The soft landing surface also works as a substitute footbar for clients with sensitive feet and allows for plyometric activity for extended periods of time. Great for all exercisers from post-rehab to elite athletes.

24”/61 cm, V2Max/Rehab V2 Max ST-02067
22”/56 cm, All SPX models ST-02068

Jumpboard™
The wide platform and firm padded jumping surface allows for biomechanically sound foot placement for plyometric and aerobic exercise, and can be used in place of the footbar. A great option for clients with sensitive feet. Constructed with high-quality materials and a sturdy metal frame, the Jumpboard offers superior stability, proven durability and continuous safety through high-intensity use.

24”/61 cm, V2Max/Rehab V2 Max ST-02017
22”/56 cm, All SPX models ST-01043

Rotational Diskboard™
This unique Reformer accessory offers both horizontal and vertical mounting slots to accommodate a variety of foot placement options. Individual mounting slots accommodate an asymmetrical stance, targeting rotation in hip flexion and extension, adduction and abduction or multiple combinations. Great for rehabilitation or clients with limited range of motion. Comes with two 10”/25.4 cm disks as shown.

24”/61 cm, V2Max/Rehab V2 Max ST-02051
22”/56 cm, All SPX models ST-02054

ALSO AVAILABLE: a set of two 12”/30.5 cm disks for clients with larger feet ST-06051

The Cross-Bow™
This attachment to the Jumpboard adds curved handles that extend above and beyond the height of the Jumpboard, ensuring ideal alignment of the hands, wrists and shoulders while exercising. The cushioned bars provide a sturdy grip for standing or lunging exercises, while the wider grip accommodates users with wider shoulders. The adjustable height is great for taller clients or those with limited flexibility.

Cross-Bow ST-02102
Jumpboard and Cross-Bow Combo ST-02103
24”/61 cm, V2Max/Rehab V2 Max ST-02104
22”/56 cm, All SPX models

Soft Footbar
Walking, running, prolonged standing or wearing shoes with improper support can all create foot pain. Covered with multiple layers of dense foam, this Reformer accessory is a comfortable alternative to the standard footbar, allowing clients with sensitive or injured feet to participate in footwork on the Reformer.

24”/61 cm frame, V2Max/Rehab V2 Max ST-02104
22”/56 cm, All SPX models ST-01040

Vinyasa Triangle™
Designed to fit any of our Reformers with removable shoulder rests, the Vinyasa Triangle dramatically expands programming options for your clients by adding challenging, dynamic poses and movement. This exclusively designed attachment can be used to support the arms, legs or other body parts on the two angled sides, and is ideal when combined with other pieces like the Jumpboard and Padded Platform Extender. Comes with hardware to also allow use in the standing platform position.

24”/61 cm, V2Max/Rehab V2 Max ST-02111
22”/56 cm, All SPX models ST-02112
Rolling Base
Stack and store up to five SPX Max Reformers. Great for facilities with limited space.
ST-02036

NOTE: STACKING POSSIBLE ONLY FOR SPX MAX COMMERCIAL REFORMERS WITH REMOVABLE SHOULDER RESTS.

Padded Platform Extender
Provides a raised padded surface for sitting or standing exercises on the Reformer. Great to use as a sitting platform for clients with hip flexion issues to maintain proper seated posture.

24"/61 cm, V2 Max/Rehab V2 Max  ST-02015
22"/56 cm, All SPX models  ST-02069

Foam Grip Handles
These handles are cushioned for extra comfort and are used with Reformers in place of standard Reformer Loops, as well as with light arm springs for Vertical Frame and Cadillac work.
ST-02007

Soft Reformer Loops
Soft Reformer Loops attach to the Reformer ropes, are cushioned for comfort, and can be doubled over as a quick way to shorten rope length. Standard with all of our SPX Max, V2 Max and Rehab V2 Max Reformers.
ST-02009

Mat Converter
Provides a cushioned surface to transform a Reformer into a stable, raised Matwork platform. Add a Mat Converter and Vertical Frame to your Reformer to gain Cadillac functionality.

24"/61 cm V2 Max/Rehab V2 Max  ST-02006
22"/56 cm SPX Max/SPX Max Plus  ST-02048
22"/56 cm At Home/Club SPX  ST-02075

Ankle Straps
Use for clients with foot conditions including plantar fasciitis who find standard Reformer Loops uncomfortable. These straps feature Velcro closures for added security and a custom fit, and allow the user to perform feet in strap exercises and legwork without compromising comfort.
ST-02019

Extension Straps
These straps assist with alignment of the knee joint and add additional challenge for footwork. Used on Reformers with Vertical Frames, Cadillacs, Wall Units and Spring Walls. Available in two sizes; the 24"/61 cm comes standard with a Max Plus Reformer and the 26"/66 cm accommodates clients with muscular thighs.

24"/61 cm  ST-02014
26"/66 cm  ST-02174

Long Spine Straps
Long Spine Straps clip to Soft Reformer Loops to extend ropes on traditional rope systems. Also used with leg springs on Cadillacs and Vertical Frames. Available padded and unpadded.

Unpadded  ST-02008
Padded  ST-02016

Arc Barrels
Featuring a gentle curve to help decompress and lengthen the spine, the Arc Barrels can be used in a variety of ways to increase or decrease challenge and to facilitate rehab-style exercises. Dense EVA foam cushioning provides optimal comfort and faithful proprioceptive feedback. The Arc Barrel Deluxe adds comfort with Baltic Birch hand grips on the sides.

- Lightweight and portable
- Can also be used on the Cadillac or Platform Mat
- Arc curve is 117 degrees

Stability Barrel
Offering all the functionality of traditional Arc Barrels, plus the added benefit of use in an inverted position, the Stability Barrel is an essential tool for aligning and mobilizing the spine. Use it to improve posture and develop greater balance and control. The curved surface provides padded support for the body in prone, supine or side-lying positions, while the smooth base offers a flat platform facilitating balance and stability. These barrels can support a variety of users with differing torso sizes, flexibility ranges and exercise needs.

Features
- Bent Baltic Birch construction
- Padded with a 0.6”/15 mm thick, Airex® Coronella, a premium, moisture-resistant closed-cell foam mat made in Switzerland. This slip-proof surface features a Sanitized® finish that inhibits bacteria growth, absorbs energy, evenly adapts to pressure and quickly recovers its original shape once pressure is removed
- Non-slip traction strips on the base
- Sturdy enough to support a body in standing, sitting or positions supported by the arms

### Halo® Trainer Plus
This versatile, ergonomic exercise device provides a multi-dimensional approach to functional training that is an ideal addition to any rehabilitation program. The unique Halo Trainer Plus provides step-wise progression to total body training by selectively controlling stability and bodyweight resistance and activating deep stabilizing muscles.

- **Halo Trainer Plus**
  - without ball and pump: ST-02208
  - with Stability Ball and pump: ST-02209
  - Halo Trainer Plus – 6 Pack: ST-11047

- **Halo Stability Ball**
  - Gray: ST-06157

Safety tested under 800 lb/362 kg

### BOSU® Pro Balance Trainer
Used in fitness facilities worldwide, the BOSU balance trainer can be used with the base side facing up or down providing an unstable surface for reinforcing balance and stability. Use the BOSU to enhance flexibility and develop core strength with challenging cardio workouts and you will see the results!

- **w 26.5”/67.3 cm x l 26”/65.4 cm x h 10”/25.4 cm**
  - 17 lb/7.7 kg: ST-06176

### Bean Bag
Strengthen wrists and arms by rolling and unrolling this weighted canvas bean bag—perfect for treating tennis elbow. Solid maple handle with durable nylon rope.

- **3 lb/1.4 kg**: ST-06001

### Spine Corrector
This versatile piece of equipment can be used to perform exercises lengthening and strengthening the torso, shoulders, back and legs. Features sturdy wood construction made from solid Baltic Birch panels and dense foam padding.
Includes maple handgrips.

- **w 21.5”/54.6 cm x l 30.75”/81.3 cm x h 12”/30.5 cm**
  - 24 lb/10.9 kg: ST-01011

### Pilates Edge™
The angled surface of the Edge is ideal for positioning the body in a range of increasing heights to add strength and stability to the torso, arms and legs. Features sturdy wood construction with dense foam padding and a non-scuff vinyl covering that easily wipes clean.
Includes integrated rings to attach resistance equipment, including bands and tubing.

- **w 21”/53.4 cm x l 39”/99.1 cm x h 14.5”/36.8 cm**
  - 17 lb/7.7 kg: ST-06044

### Spine Supporter
Ideal for reducing neck tension, while stabilizing the spine for exercises performed on a Mat and other equipment. Used frequently for clients with weak lower backs, to modify exercises during pregnancy and to develop proper form for abdominal work.
Features sturdy wood construction with dense foam padding. Includes integrated support straps.

- **w 13”/33 cm x l 29.5”/75 cm x h 15”/38 cm**
  - 8 lb/3.6 kg: ST-01016

Fascia

Fascia, the connective tissue that weaves throughout all the organs, muscles and bones of the body, is a crucial element in maintaining overall health and optimal physical function. Like the musculoskeletal system, the fascial system changes in response to repeated stress and injury and small changes in the fascia in one area of the body can ripple out and affect the body as a whole. Regularly massaging the muscles can help relieve built up fascial tension and stress and is key to effective self-care.

acuBall® Mini

This mini massage ball targets the smaller muscle groups of the feet, hands, shoulders, upper back, forearm, outer leg and sacrum. Place the acuBall Mini under an area of tension, and relax as your bodyweight does the work of massaging the tissues. Use the acuBall App and discover easy-to-follow instructions for targeting and treating muscle pain. Lightweight and portable, the acuBall Mini is the perfect travel companion.

dia. 1.5”/3.8 cm x l 24”/61 cm

acuBack™

An effective tool for more than just a good back massage, the heatable acuBack uses bodyweight to release muscular and myofascial tension. Ideal for relieving chronic lower back pain, muscle knots and muscular discomfort, as well as encouraging blood flow to fascia and muscle tissues. The acuBack is also great for targeting trouble areas like shins and calves. Download the acuBall App to your Android or iPhone and discover easy-to-follow instructions for targeting and treating tight or injured areas.

**Mini Handweights** pair
These Mini Handweights are great for toning the arms, or increasing the intensity of your workout. Straps ensure these handweights fit snugly and safely in the palm of the hand.

- **6-12 pcs | CTN**
  - 1.1 lb/0.5 kg each, Pink ST-06103
  - 1.65 lb/0.75 kg each, Purple ST-06104
  - 2.2 lb/1 kg each, Green ST-06105
  - 2.75 lb/1.25 kg each, Blue ST-06106

**Soft Dumbbells** pair
Easy on your hands while still providing the same workout benefits of traditional dumbbells. Soft dumbbells are not just more comfortable, they are also less likely to damage your floor or walls. Great for using on walks and for arm exercises.

- **8 pcs | CTN**
  - 1.1 lb/0.5 kg each, Orange ST-06107
  - 1.65 lb/0.75 kg each, Lemon ST-06108
  - 2.2 lb/1 kg each, Lime ST-06109

**Flex-Band®**
Simulate many of the moves performed on a Reformer with these latex bands. The Flex-Band can also be used to add upper- and lower-body resistance to Matwork. Available in two strengths and 12-pack rolls.

- **W 6’/15 cm x L 78’/198 cm**
  - Regular-Strength, Green ST-06021
  - Extra-Strength, Blue ST-06022

- **12-pack rolls**
  - W 6’/15 cm x L 945’/2400 cm
  - Regular-Strength, Green ST-06170
  - Extra-Strength, Blue ST-06171

**Non-Latex Flex-Band***
Enjoy the benefits of Flex-Band resistance with a non-latex option.

- **W 6’/15 cm x L 78’/198 cm**
  - 12 pcs | CTN
  - Light-Strength, Orange ST-06058
  - Regular-Strength, Lemon ST-06059

  - Light-Strength, Yellow ST-06284
  - Regular-Strength, Red ST-06193

Twist Ball™ with pump ✿
Not your ordinary medicine ball! With a shifting center of sand, the Twist Ball challenges the user to control the moving center of gravity throughout exercises. Soft, neoprene-covered handles allow for double and single-handed swinging and can be fitted over an ankle for leg extensions and lifts.
- 8 pcs | CTN
- 6 lb/2.72 kg
  - Purple ST-06234

Medicine Balls ★
Perfect for rehabilitation and strength training. Use them to improve core strength and tone.
- 4 pcs | CTN
- 4 lb/1.8 kg
  - Purple ST-06094
- 6 lb/2.7 kg
  - Blue ST-06095
Focus on wellness, even while at work. We offer a range of products that easily adapt to a work environment that can help challenge core stability, increase circulation and encourage correct alignment while you sit.

**Balance & Therapy Wedge**

Improve your posture and engage your core while you sit. Ideal for use in the office, the unstable surface of the Balance & Therapy Wedge helps to improve core strength by activating deep stabilizing muscles and aligning the spine, while the textured surface helps stimulate circulation. PVC-free.

---

**Sitting Cushion**

Perk up your office chair and challenge your core while you work with this inflatable cushion. The unstable surface encourages proper spine alignment, while the textured surface boosts circulation. The perfect travel companion, the Sitting Cushion's compact size makes it easy to slip into a suitcase or carry on.

---

**Stability Ball Base™**

Convert your Stability Ball into a chair for convenient core workouts at the office or at home, or use the Stability Ball Base on its own for a variety of exercises. Use with the 17.7”/45 cm Stability Ball to create an active seat for kids while they watch TV or play video games. Stability Ball sold separately.

---

**Foot Massager**

Bring the benefits of a professional foot rub to your home or office with this textured massager. A specially designed independent rollerball hits just the right spot on the arches, while the Foot Massager kneads the soft tissues of your feet for fast relief from aches and pains.
Additional Accessories

The perfect complements to a rehabilitation studio or clinic, these accessories and props offer clients additional support, space and challenge.

**Stability Cushion™**

Add variety, functionality and challenge to any exercise program with the Stability Cushion. Enhance your stability, strength and balance while performing exercises in standing, sitting, kneeling, supine and prone positions. Great for use with everyone from rehab clients to professional athletes and supports exercises up to 350 lb/158.5 kg. PVC free.

**Dia. 14”/36 cm**

- Small, Green ST-06071
- Large, Blue ST-06110

**Balance Pad**

Add challenge to your workout routine with a Balance Pad. The unstable surface builds core and lower-body muscle group strength. Made of eco-friendly TPR.

**w 16”/41 cm × l 9.5”/24 cm × h 2.5”/6 cm**

- 8 pcs | CTN
- Half Size, Charcoal, pair ST-06243
- Large, Charcoal, single ST-06244

**Eco-Friendly Pilates Pad**

Our Eco-Friendly Pilates Pad is latex-free, hypoallergenic and does not have the scent typically associated with traditional rubber pads. These non-slip pads can be stacked to just the right height to establish correct positioning for exercises or to add extra cushioning. Sold individually, available in blue only.

**w 14”/36 cm × l 7.5”/19 cm × h 0.5”/1.2 cm**

ST-02101

**Foam Cushions**

Foam Cushions are a necessary addition to any fully-equipped studio or training facility. Each is designed to serve a variety of purposes and all aid in increasing exercise options, allowing for proper alignment and biomechanics.

**Foam Cushion A**

Offers head support to create better alignment of the head and neck, preventing the cervical spine from overextending.

**w 9”/23 cm × l 6”/15 cm × h 1”/2.5 cm**

ST-06004

**Foam Cushion B**

Use between the knees and/or ankles to maintain activation of the hip adductors and proper alignment of the legs and hips. Also ideal for use on the Reformer to support the head in side-lying positions.

**w 6”/15 cm × l 9”/23 cm × h 3”/7.6 cm**

ST-06003

**Foam Cushion C**

Perfect for seated exercises. Individuals with tightness through the lower back, hips and knees can achieve an optimal sitting position with this foam cushion.

**w 10”/25.4 cm × l 13”/33 cm × h 2.5”/6.4 cm**

ST-06005

**Gripper Mat**

Versatile, non-slip rubber mats are used on various pieces of equipment to increase traction and prevent slipping or sliding.

**w 12”/30.5 cm × l 17”/43 cm**

Various colors ST-02022

Select Professional Mats

**Merrithew™/Airex®**

**Coronella 200 Mat ★★★**
Made in Switzerland, the Merrithew / Airex Coronella 200 is eco-friendly and the highest-quality, longest, and thickest mat in our mat line. It provides a cushiony surface with a memory foam-like quality that allows the mat to immediately bounce back to its original shape, and it always lies flat. Made of a moisture-resistant closed-cell foam, it has a Sanitized® finish that inhibits bacteria growth. The grooves on both sides of the mat create a slip-proof surface that’s great for yoga, hot yoga and Pilates.

- **Dimensions:** W 23.5” x L 78.75” x H 0.6”
- **Thickness:** 15 mm
- **Quantity:** 1 pc | CTN
- **Colors:** Terra Brown ST-02192, Graphite ST-02070

**Deluxe Pilates Mat ★★★**
A great option for multi-use facilities, this club-quality mat rolls up or hangs on the wall for easy storage options. Made of closed-cell, high-density NBR foam to protect your spine and soften hard surfaces.

- **Dimensions:** W 24” x L 72” x H 0.6”
- **Thickness:** 15 mm
- **Quantity:** 6 pcs | CTN
- **Colors:** Graphite ST-02173, Midnight Blue ST-02176

**Pilates & Yoga Mat XL ★★★**
Stretch out on this oversized mat that has plenty of leg room for taller exercisers. Bring it to the gym or studio, or roll it out at home for a superior workout surface. Made with PER™ foam, this mat is 0.25” (6 mm) thick, with excellent traction and shock absorption. Recyclable, phthalate- and heavy metal-free, the eco-friendly Pilates & Yoga Mat is the perfect base for a broad range of exercise modalities, including yoga, Pilates, and athletic training regimens.

- **Dimensions:** W 26” x L 78” x H 0.25”
- **Thickness:** 6 mm
- **Quantity:** 1 pc | CTN
- **Colors:** Gray Blue ST-02213, Gray Purple ST-02212

Warranty
We stand behind the exceptional quality of all of our products. Our equipment is built to last and our warranty is the best in the industry. Commercial Reformers come with a Limited Lifetime Warranty on the frames, related welding, footbar mechanism and traditional gearbar. For our complete warranty, visit merrithew.com/support/warranty

Returns
We offer returns on many of the smaller products we sell, however, large equipment cannot be returned. For complete details on our policies, please read our guidelines at: merrithew.com/support/returns

Shipping
Large equipment shipments within Canada and Continental USA
Large equipment is shipped by ground via a freight carrier, with curbside delivery. Other options are available.

International and overseas shipments
Standard quoted shipping options include ocean freight to nearest port or air freight to nearest airport.

Door-to-door delivery may be available for your order at an additional charge. Please contact us for details.

Custom Orders
We offer many options on our equipment to make it perfect for you. We’re happy to help in any way possible to make it just the way you want it. Please contact our sales consultants at the numbers below.

Service and Support
Our team is available to discuss any questions you may have.

Monday – Friday, 9am – 5:30pm EST
Toll-free North America 1.800.910.0001 ext. 264
Toll-free in the U.K. 0800 328 5676 ext. 264
International 416.482.4050 ext. 264
