

Mat Hanger™

Please review this important **assembly, safety** and **warranty** information about your new Merrithew™ equipment and keep it handy for future reference.

IMPORTANT!

Adhere to the following guidelines.

- ▶ Use only for intended purposes
- ▶ Intended for mats only, maximum of 15 per hanger
- ▶ Maximum total weight capacity 66 lbs/30 kgs
- ▶ Do not hang from the dowels or allow children to hang from the dowels.

BY USING THIS EQUIPMENT, YOU ACCEPT RESPONSIBILITY FOR YOUR OWN ACTIONS.

Care and Cleaning

Clean all surface areas as required, using a soft cloth and gentle cleaner. Ensure cleaner does not leave an oily residue, or make surfaces slippery. **CAUTION:** We do not recommend using chemical-based products.

Hardware Required

not included

Specific bolts and/or screws used in the installation of this equipment depends on the type of surface it is being affixed to, although it is always recommended that you try to attach to a wall stud.

Your local hardware store or contractor will be able to assist you in selecting the appropriate hardware for your specific needs.

Affix to Wall Stud or Wood Surface – *recommended*

Assembly and Installation

To prevent unsafe or improper installation, please read each step carefully before beginning.

- ▶ Place all parts from the box in a cleared area and position them on the floor in front of you.
- ▶ Remove all packing materials from the area and place them back into the box.
Do not dispose of the packing materials until assembly is completed.

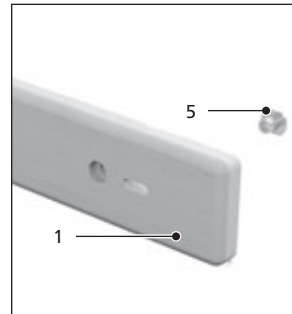

1. Select your wall and identify and obtain the appropriate hardware.

NOTE: A minimum of 80"/2 m is required from the floor to allow for mat clearance.

2. Measure and mark drill holes for placement of the mat hanger wall plate [1], using the builder's level to ensure it is level.

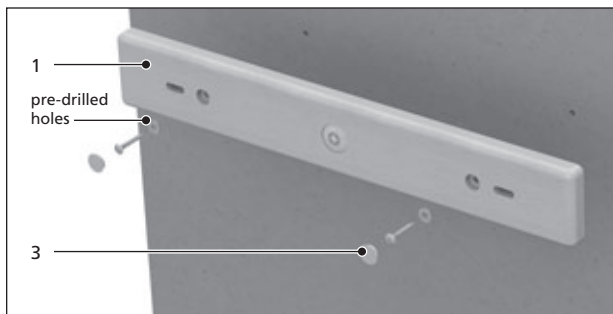

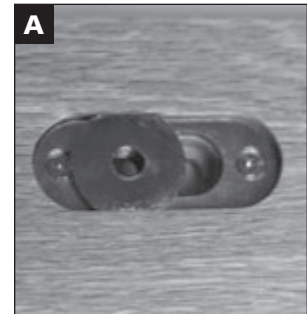

NOTE: The holes are set 16"/40.64 cm apart. It is recommended that at least one hole be set into the wall support stud.

3. Drill two holes 16"/40.64 cm apart and at your desired height.

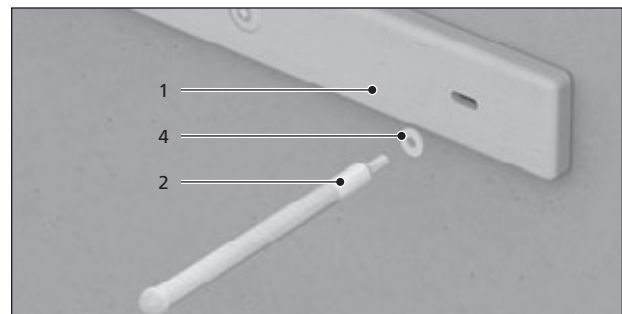

4. Place the T-shaped screw bushings [5] into the groove on the back of the mat hanger wall plate [FIG. A].

NOTE: The bushings slide within the groove to allow for adjustment of the dowel hangers.

5. Set the mat hanger wall plate over the pre-drilled holes ensuring it is level before attaching with the appropriate hardware.

6. Place plastic caps [3] into the recessed opening to cover hardware after affixing the mat hanger wall plate [1].

7. Add one washer [4] to the threaded end of the dowel hangers [2] and screw into the bushings in the mat hanger wall plate [1], turning clockwise. Repeat with the second dowel hanger.

NOTE: Once hooked into the bushing the dowel hanger may be adjusted by sliding it within the opening to allow for correctly spaced dowel hangers.

ENSURE MOUNTING IS SECURE, PRIOR TO HANGING MATS.
